PROFESSIONAL SUMMARY

Proactive Game Developer with 2.5 years of experience in Unity and C#. Transitioned from a Digital Arts background to programming role, combining creative vision with technical execution. Experienced in leading development on collaborative projects under pressure.

PROJECTS

Speedrun To Diabetes - Solo Project

April - September 2025

Developed a complete hypercasual game from scratch to apply advanced software architecture concepts.

- Engineered a procedural object spawner using the Factory design pattern and weighted probabilities to ensure balanced, dynamic gameplay.
- Optimized user experience by redesigning the input system for intuitive cross-platform play (Mobile/PC) and implementing a local high-score system.

Nara: Tower Defense - Lead Unity Developer

July - August 2025

Stepped up to lead all programming efforts following a team restructuring, ensuring delivery for critical deadlines.

- Developed most of core systems, single-handedly designing and implementing the UI, audio, localization, and narrative architecture in Unity (C#).
- Architected a scalable class, enabling the modular addition of new narrative levels without code duplication.

Chemical Engineer - Technical Designer

August - September 2024

- I designed the level, the lighting of the 3D world, and the implementation of the graphical interface and sound systems.

Gamified Project for Client - Unity Developer & Game Designer

July - August 2024

- Developed a small puzzle mini-game for a client, programming the core sorting logic and user interaction systems.
- Integrated the feature into the main application, handling UI, sound, and game state management.

Súper Libia - Game Programmer & Technical Artist

March - April 2023

- Implemented core clicker-style gameplay mechanics and contributed to UI design.
- Managed the 2D technical art pipeline, rigging and animating characters within Unity and developing a custom shader to enhance visual feedback.

Bota Bota - Game Designer & 3D Artist (Game Jam Project)

November - December 2022

- Authored the Game Design Document (GDD) and defined the visual style, leading to a cohesive 3D prototype developed under strict time constraints.

EDUCATION

Instituto Tecnológico y de Estudios Superiores de Monterrey (ITESM)

August 2016 - December 2022

Bachelor of Arts, Digital Art

- Specialization in Animation and Game Development.

UT-HUB

May - June 2023

- Epic Bootcamp: Animation in Unreal Engine.

SKILLS

Languages: C# (Proficient), C (Basic) & Unreal Blueprints (Basic).

Game engines & Software: Unity, Unreal Engine, GitHub, Visual Studio, Maya, Adobe Creative Suite (Photoshop, Premiere, After Effects), Miro, Trello & Notion.

Development Skills: Game Design, System Architecture, Gameplay Scripting, UI/UX Implementation, Level Design (Blockout).
